NATURAL  
GROWTH  
FACTORS

FROM  
PREMIUM BIRD NEST  
EXTRACTS

A NATURAL WAY  
TO SUPPORT YOUR  
AUTONOMIC  
NERVOUS SYSTEM  
AND ENHANCE  
IMMUNITY

## WHAT IS AUTONOMIC NERVOUS SYSTEM (ANS)?

Our autonomic nervous system (ANS) is a control system that acts unconsciously and regulates our bodily functions such as our heart rate, digestion, respiratory rate, pupillary response, urination, and sexual arousal. This impacts all of our senses and thought processes.

The ANS, therefore is regarded as an important coordination centre for all of our physiological body functions and our vital immune system. To facilitate the proper functioning of our ANS, a special group of bio-molecules called the nerve growth factors are essential for acting as neuroimmune crosstalk mediators for proper coordination of all physiological functions in our human body. 🐦

## WHY IS OUR AUTONOMIC NERVOUS SYSTEM (ANS) IMPORTANT?

Our autonomic nervous system is a vital part of our nervous system that controls involuntary actions, such as the beating of our heart and the widening or narrowing of our blood vessels. When something goes wrong in our system, it causes serious problems including

- High blood pressure
- Heart problems
- Trouble with breathing and swallowing
- Parkinson's and Brain Degenerative Disease
- Stroke

Disorders of the autonomic nervous system can affect any part of your body or process. Autonomic disorders may be reversible or progressive. ↪

## WHY NGF?

NATURAL GROWTH FACTORS FROM PREMIUM BIRD NEST EXTRACTS

A NATURAL WAY TO SUPPORT OUR AUTONOMIC NERVOUS SYSTEM AND ENHANCE OUR IMMUNITY

Our body produces a critical protein for the purpose of growth, maintenance and survival of nerve cells, known as nerve growth factors. It is important for the message signalling between nerves and as a result it is vital for optimal brain function. The brain is made up of about 100 billion nerve cells, which communicate to each other.

As we age, it is inevitable that we are susceptible to a degeneration of the central (brain/spinal cord) and peripheral (nerves through the rest of the body) nervous systems. This leads to a decline of brain function with age, which results in a deterioration in the quality of life because the functioning of our ANS (Autonomic Nervous System) decreases drastically.

So what can be done about the degeneration of our nervous system and brain functions? How can we create nerve growth factors inside our brain in order to regenerate the brain and protect it from degeneration?

Now with NGF, a synergistic formulation of Natural Growth Factors from Premium Bird Nest Extracts and other bioactive ingredients, you can. Taking NGF may cause our brain and nervous system to produce an abundance of nerve growth factors. This will help in the maintenance and the regeneration of your nerves, regardless of your age. 🐦

## KEY BENEFITS OF NATURAL GROWTH FACTORS FROM PREMIUM BIRD NEST EXTRACTS

- Stimulate the production of nerve growth factors in the human brain
- Regulate and enhance the Immune system
- Enhance memory retention and prevent neuro-degenerative diseases such as dementia including Alzheimer's disease and Parkinson's disease
- Perfect for chronic diseases and all viral infections

## BENEFITS OF OTHER SYNERGISTIC INGREDIENTS

### PURPLE CHOKEBERRY

Anti-inflammatory

Improve our body's own natural production of insulin

Natural cancer fighter

### SAGE EXTRACT

Boost cognitive development & immune system

Lowering blood glucose & cholesterol

Beneficial in improving digestion

### BACOPA

Anti-anxiety & Anti-depressant

Memory improvement

Protect against brain aging and dementia

Blood pressure regulator

### NATOKINASE

Reduce blood clots

Help to prevent heart attack & stroke

Improve blood circulation

### BETA-GLUCAN

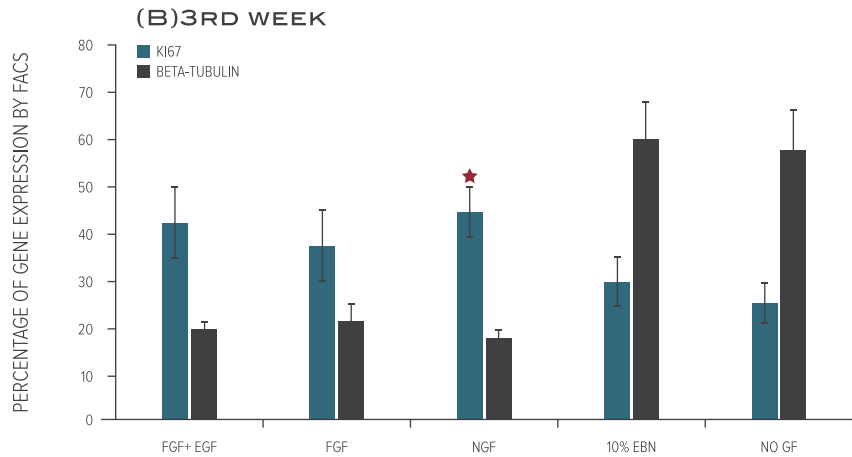

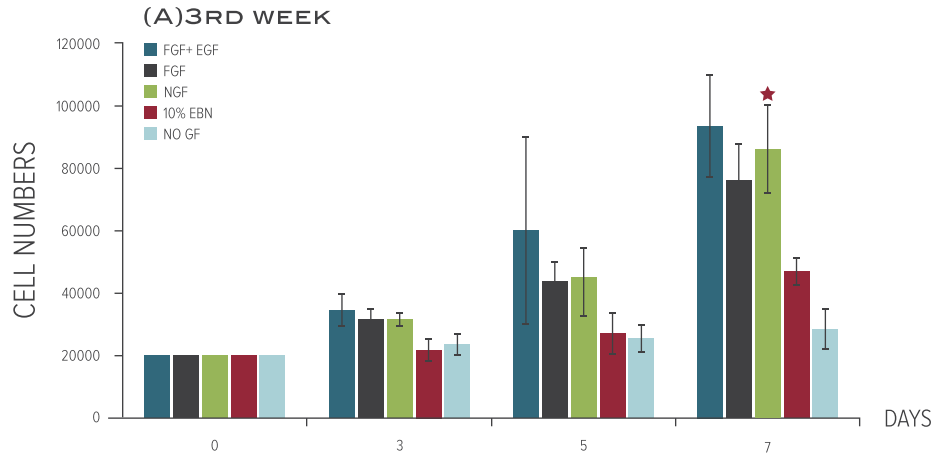

Strengthen the immune system

Lower the risk of obesity

Help protect against diabetes-related complications

# NEURAL PROGENITOR CELLS

(A\*STAR VALIDATION REPORT)

Long term effect of Edible Bird Nest (EBN) extract on proliferation and differentiation of hNPCs. hNPCs were continuously cultured for three weeks in presence of either growth factors (FGF) and EBN extract. Afterward, hNPCs were harvested and seeded into new plates for cell growth study at 20,000 cells/well. Cell growth (A), cellular marker for proliferation (ki67) and neuronal differentiation (beta-Tubulin) (B) were measured after 1 week of cultivation.

To boost your body's natural capacity to promote nerve growth factors in your brain functions, to enhance your autonomic nervous system and improve your Immunity system. Try NGF today.

## NATURAL GROWTH FACTORS

FROM THE SYNERGISTIC  
FORMULATION OF PREMIUM BIRD NEST EXTRACTS  
AND OTHER EFFECTIVE INGREDIENTS

The only natural way.

ngf  
NATURAL  
GROWTH  
FACTORS

萃取自极品燕窝的  
天然生长因子

以天然途径支撑  
我们的自主神经系统  
也同时加强我们的  
免疫力

## 什么是自主神经系统 (ANS) ?

我们的自主神经系统 (ANS) 是一种管控系统, 在很大程度上是无法被意识所掌控的。它调节身体的多种功能如心肌律动、消化功能、呼吸频率、瞳孔反应、排尿功能及性欲能力等, 也包含我们所有的感官及思考程序。

因此ANS可被视为人体生理功能中极为重要的协调中心, 当然还包括极为重要的防疫系统。为确保ANS能正常运作, 在它里头必须有一组特殊的生物分子不停的操作。它们就是生命成长因子(NGF) , 是神经免疫中的串扰介质, 适时地协调人体中的所有各项生理机能。👉

## 为何ANS如此重要？

自主神经系统（ANS）是我们体内神经系统的一环，掌管人体内的不受控机能，如心跳、血管舒紧等。这些功能一旦有了偏差，就可能导致严重的健康问题，这包括

- 血压问题
- 心脏问题
- 呼吸及吞咽困难
- 帕金森病及大脑退化等疾病
- 中风

自主神经系统一旦发生障碍，就会影响身体上的任何部位或运作。自主障碍的形成，可以是因其他部位的自主神经受到破坏（比如糖尿病），或是自身突发而成。自主障碍是可以复原或更行恶化的。↘

## 为什么是NGF?

萃取自极品燕窝的天然生长因子

以天然途径支撑我们的自主神经系统，也同时加强我们的免疫力

我们体内会自然产生让神经细胞成长、维持并存活蛋白质，这就是神经生长因子。其重点作用是在神经细胞之间传递各类讯息，使大脑功能处于最佳状态。须知人体大脑里包含了千亿个神经细胞，彼此不断地互传讯息。

当我们年纪渐长，中枢（大脑及脊髓）及周边（身体其他神经）的神经系统就会逐渐退化。自主神经系统（ANS）一旦显著下降，首当其冲受影响的会是大脑功能的退化，接着就是我们生活质量的恶化

那么我们该当如何防范神经系统及大脑功能的退化呢？

我们又该当如何使大脑中的生长神经因子获得重生，让大脑功能恢复生命力呢？

那就是透过天然生长因子(NGF)，一种萃取自极品燕窝及多种生物活性成分组成的协同配方。

服食NGF 能促进神经生长因子大量产生；其功效不仅能维持，甚至能让体内其他部位的神经生长因子也获得重生，无论你当前是身处哪一个年龄层的。👉

## NGF 极品燕窝萃取物的 主要功能

- 刺激人类大脑自行生产神经生长因子
- 调节并提高免疫系统
- 加强记忆的留存, 并延迟神经退化的病症,  
如老年痴呆症和帕金森病
- 特别适合多种慢性疾病, 及所有的病毒感染

## 其他协同成分的功效:

### 紫色堂梨

抗炎

促使身体能自行生产胰岛素

天然的抗癌“战士”

### 鼠尾草

强化知觉发展及免疫系统

降低血糖及胆固醇

改善消化系统

### 假马齿苋

抗焦虑症及抗抑郁症

增强记忆力

预防大脑退化, 及老年痴呆

调控血压

### 纳豆激酶

降低血块形成

帮助预防心脏病及中风的风险

改善血液循环

### $\beta$ 葡聚糖

增强免疫系统

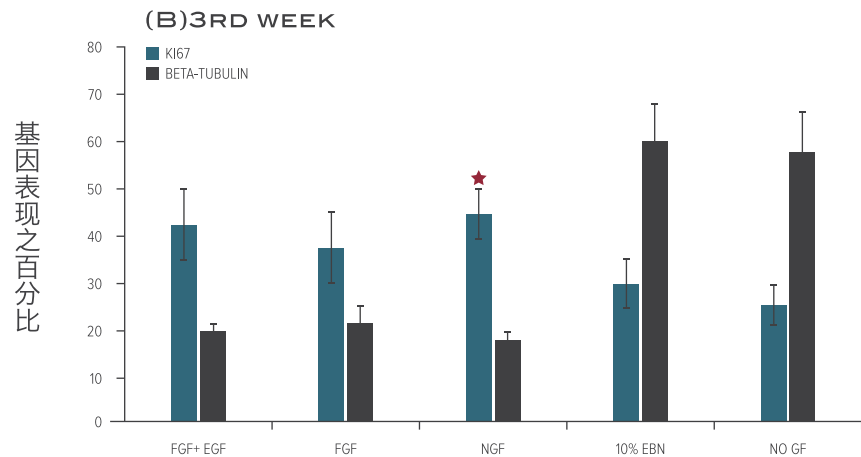

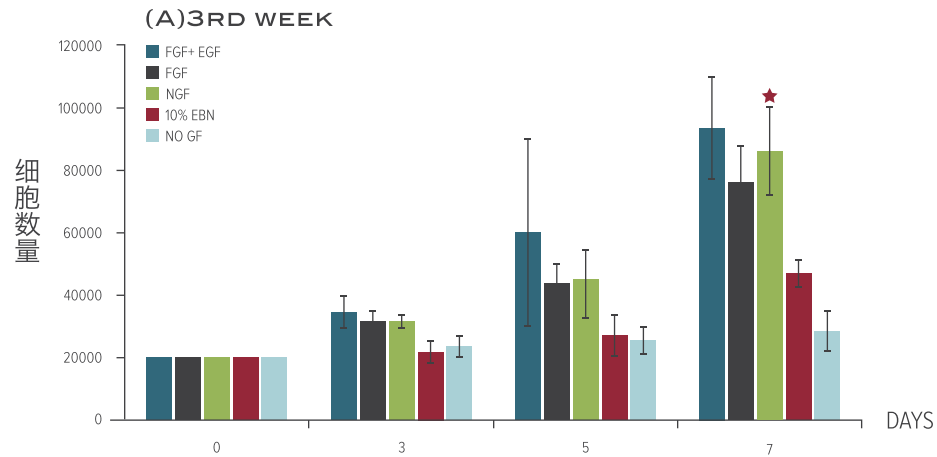

降低肥胖的风险

帮助防止与糖尿病相关的并发症

# NPC的临床实验 燕窝萃取物对神经祖细胞的 长期增殖之观察报告

(A\*STAR VALIDATION REPORT)

食用性燕窝萃取物EBN对神经祖细胞NPC的增殖和异化的长期功能研究，持续了三个星期。首先将神经祖细胞分别置于在单含生长因子、或加入燕窝萃取物的培养液里。之后，将这些神经祖细胞收集并置于新的盘子里，进行每组两万万个细胞的成长状态研究。图表A显示细胞的繁殖指标，图表B显示细胞经过一周培育后的异化状况。

加添你身体的天然能量  
促进你大脑中的神经生长因子  
强化你的自主神经系统, 改善你的免疫系统  
今天开始服用NGF。
